# Mellow

*Seating*

The pleasantly smooth organic design with the various proportion of Benches and Stools. As it names “ Mellow” These are items of seating that make people live and feel, that encourage human contact and peaceful conversation.

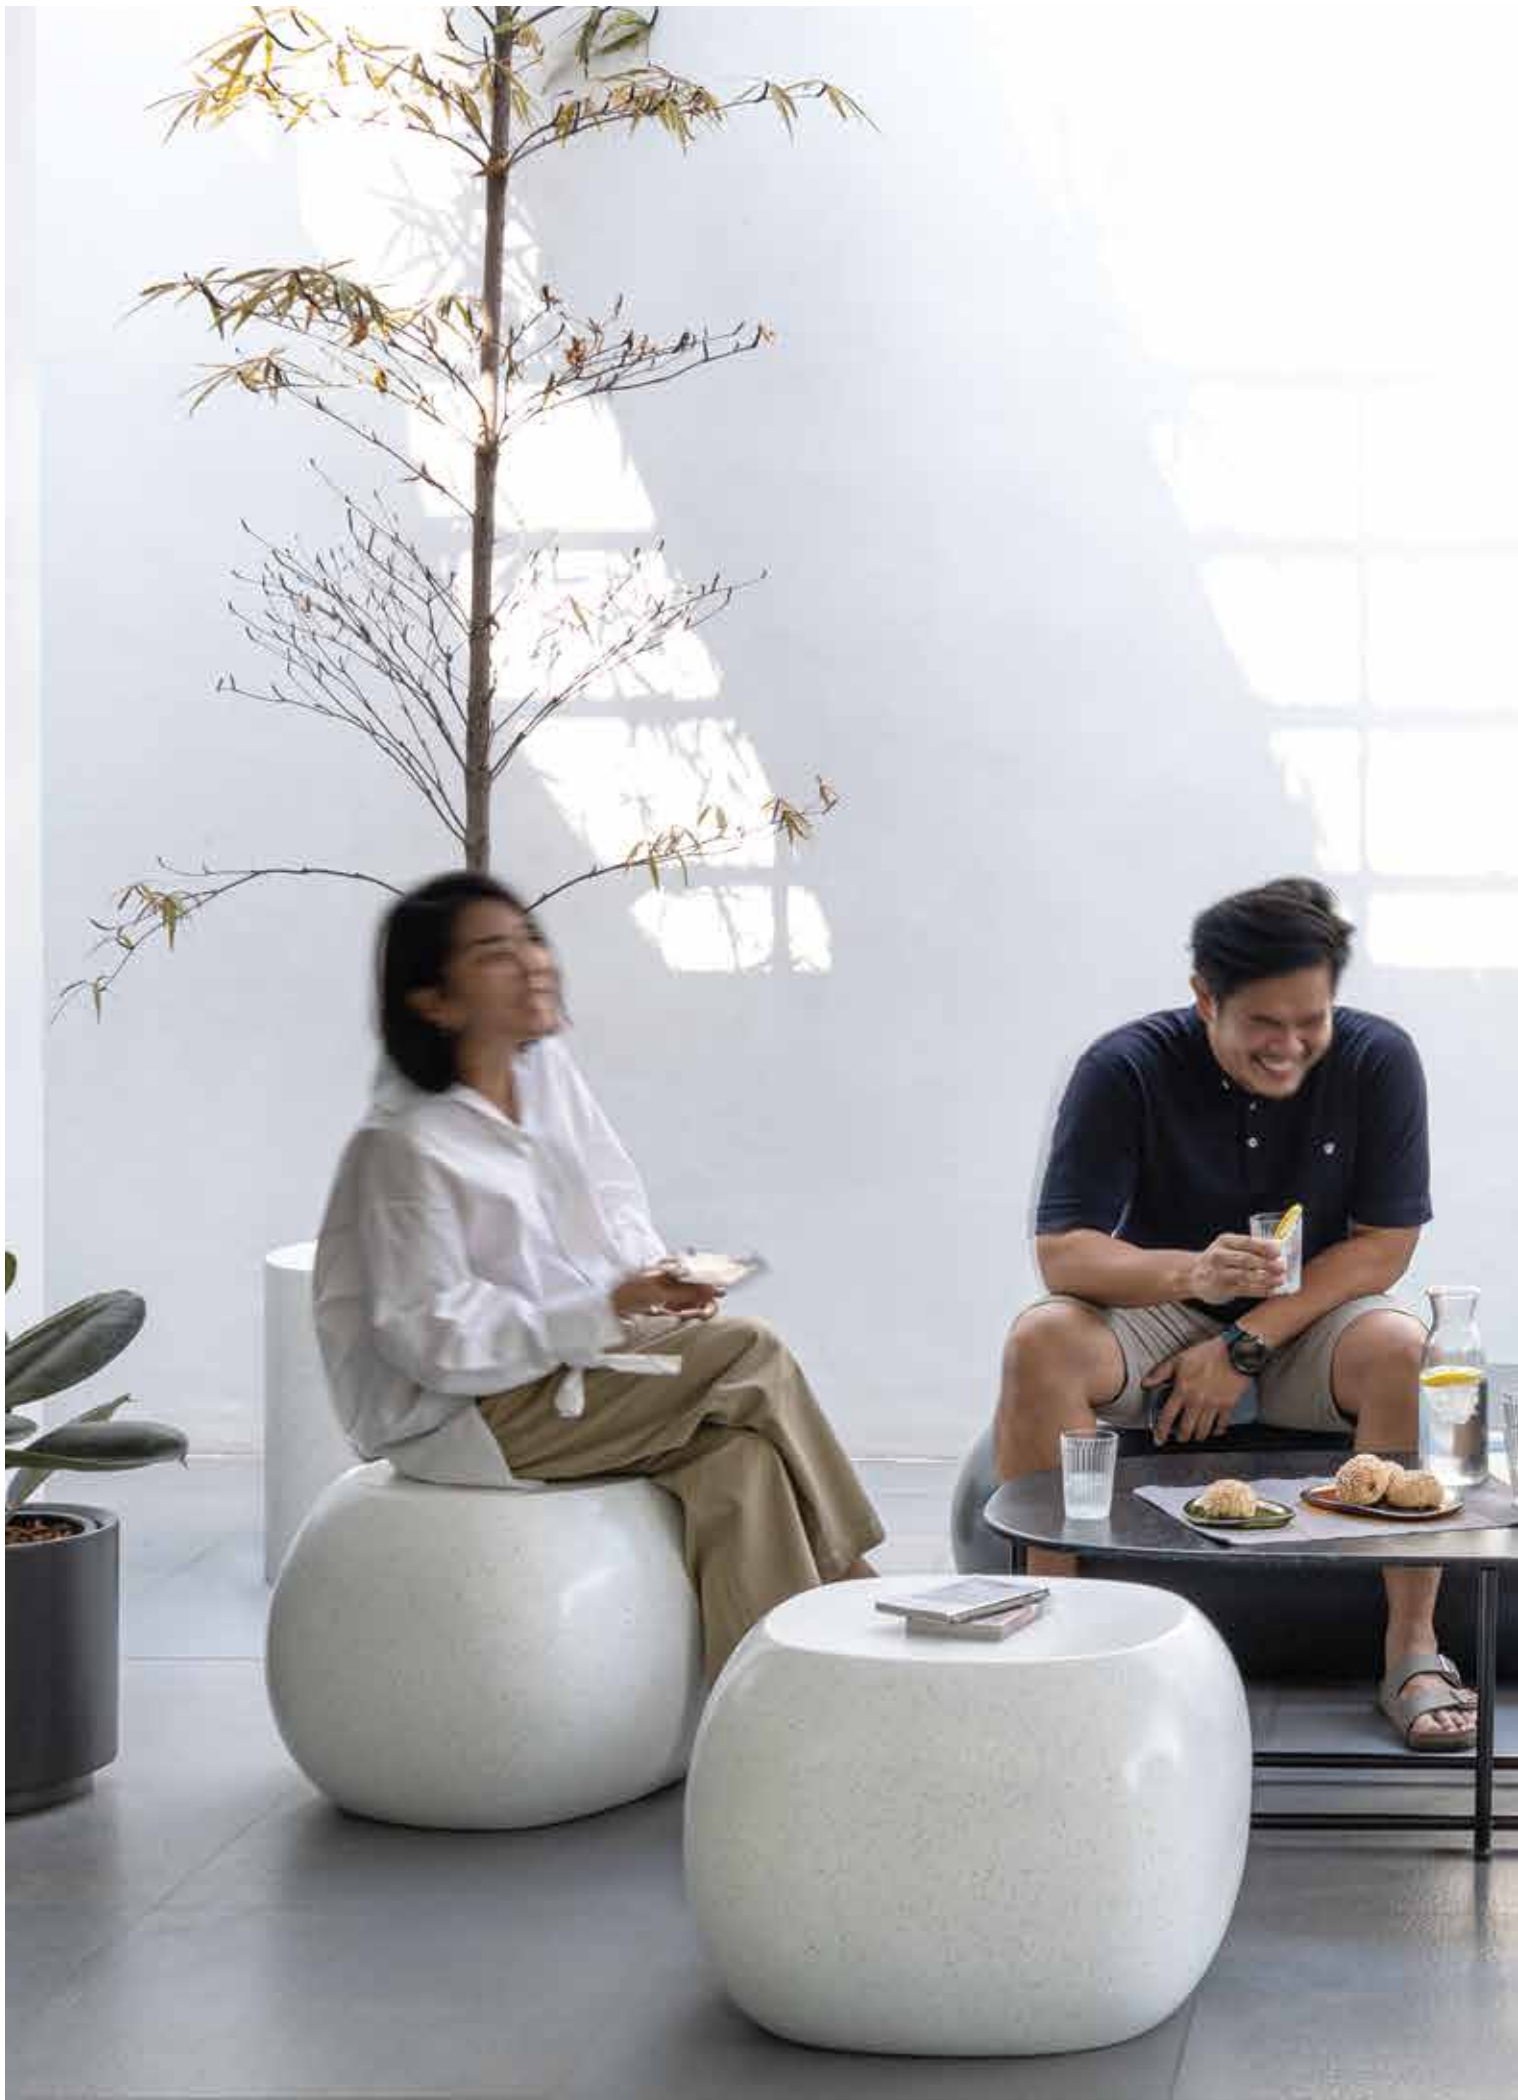

# Mella

*Seating*

MELLA collection is inspired by the Mellow family. It features our willingness to develop a design in line with MELLOW but with more versatility of usage.

MELLA is just like MELLOW. The difference is their flat-top so can be used as Stool, Side Table or Coffee table.

# Ola

*Seating*

The easy chair results from merging of “The smooth curved form” with “The sense of comfort and relaxation”

The OLA is the idea of the soft round nest with soft cushion and a back-rest. As well as its special characters, OLA is also designed for comfort, Which make it compatible for both indoor and outdoor spaces.

# Raffe

*Plantpot*

The sculptural series of plant pots with carefully crafted to be to crate the dramatic effect. The ideas is to evokes the force of pull and little twist distort simple organic outline into three dimension object. The three size work particularly well when grouped together as "The Living sculpture"

# Ed

*Bench*

ED is the Thin-lined designed bench. The Combination of the Fiberglass Leg and solid wooden with hidden powder coated steel structure below to ensure its durable with the slim appearance.

# Pebba

*Seating*

The Pebble stone that can be found in nature itself, creating the harmony between the natural and the artificial landscape. Pebba can fit perfectly into any environment, creating its own beauty.

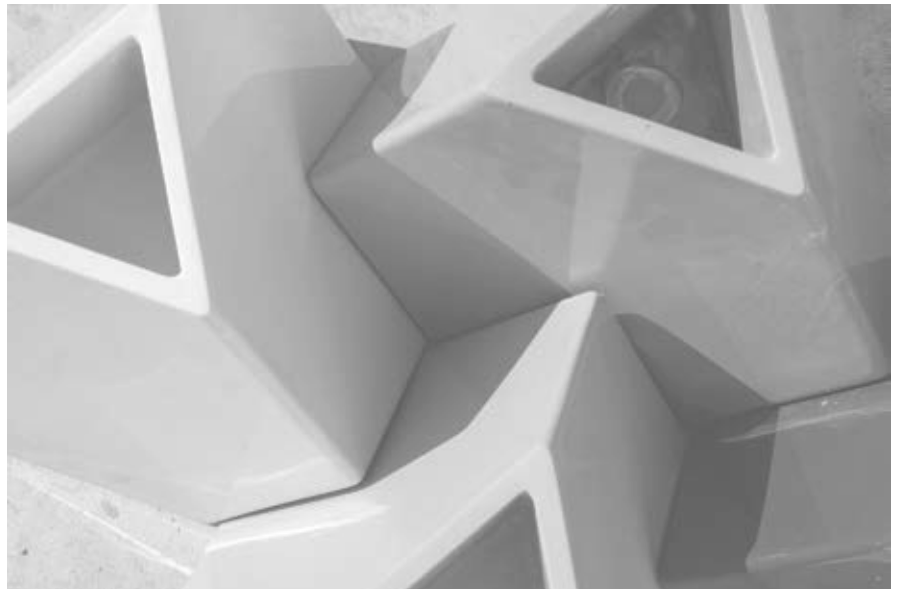

# Rockbound

*Plantpot & Seating*

The hexagon modules of stool and plant pots with various proportions inspired by the crushed rock.

Both pots and stool can be placed together side to side and the slope of each surface fit along together perfectly.

The Rockbound can be placed in the corner as the sculpture with the living for most of the modern spaces.

# Jenga

*Bench*

The design from childhood, JENGA is the game that the players take turns removing one block at a time from the tower. The design concept is to emphasize the block and turn them into the stackable modular.

The solid wood seat are available so the user can use them as the benches or planters.

# Tuba

*Plantpot*

As its name implies, the simple tube form with the various heights and diameters of plant pots. The idea is to monumentalize the plant, to show their beauties. The TUBA would be particularly suitable when grouped together creating an indoor forest.

# Pebba pot

*Planter*

The Pebble stone that can be found in nature itself, creating the harmony between the natural and the artificial landscape. Pebba can fit perfectly into any environment, creating its own beauty.

# Cliff

*Vertical Planter*

The stackable cubic modular plant pots consist of 2 types of modules the base and the head.

Each of module can be stacked together with the others fit into any corner with the randomly assembled as multi-level gardens provide galleries of plants.

# Spir

*Set*

Inspired by the vortex, unique design furniture. SPIR collection consist of Lounge chair, Coffee Table and Plant pots which can be placed

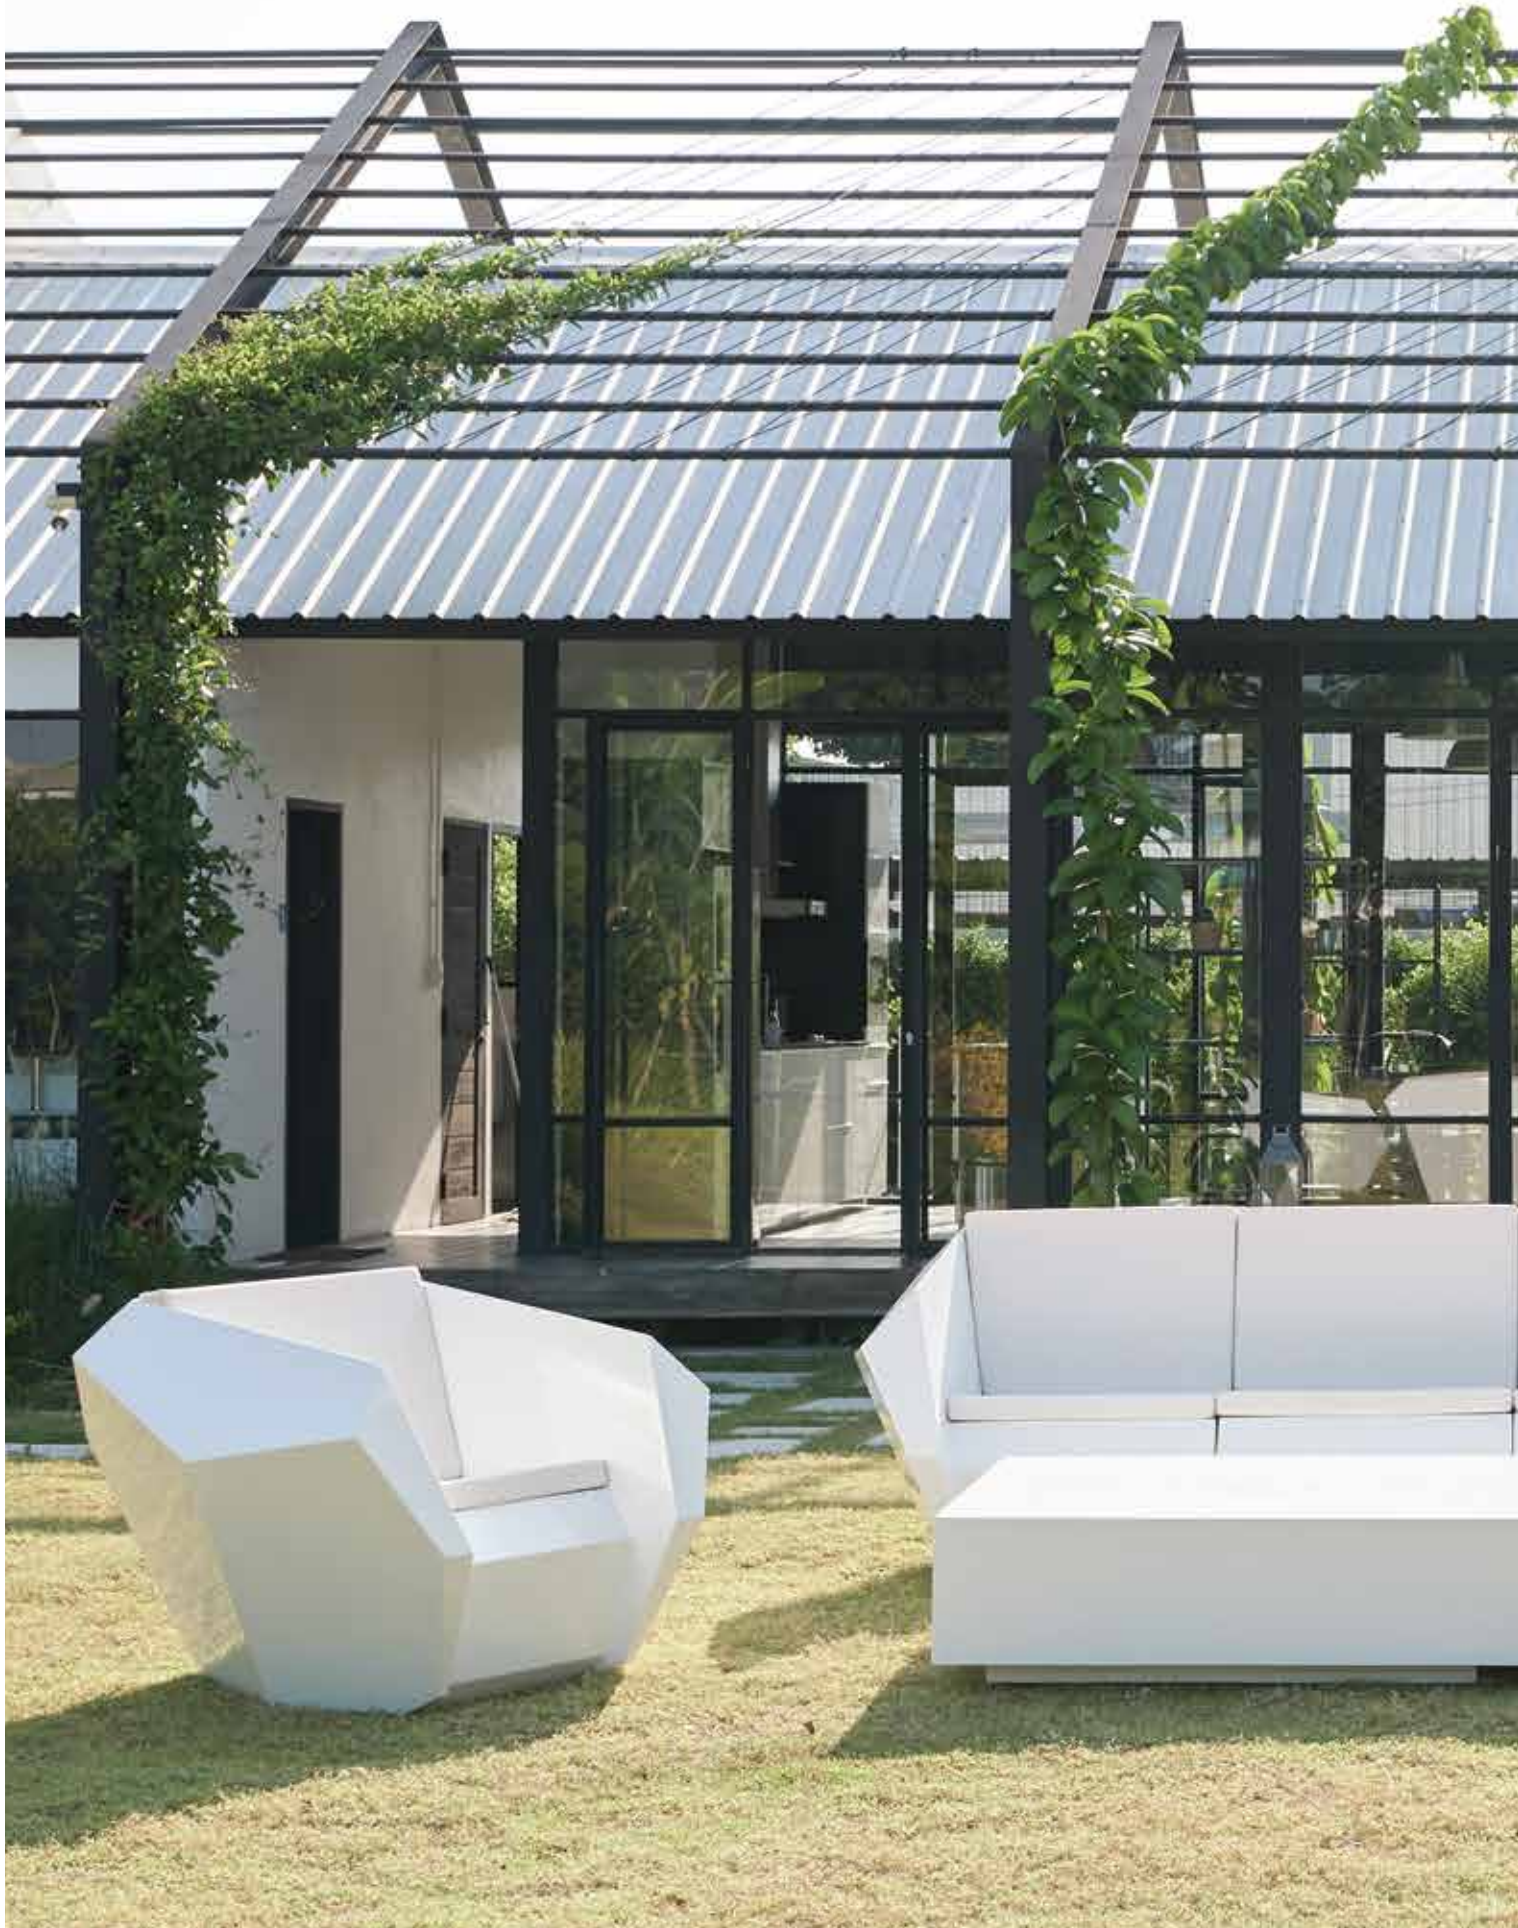

# Quartz

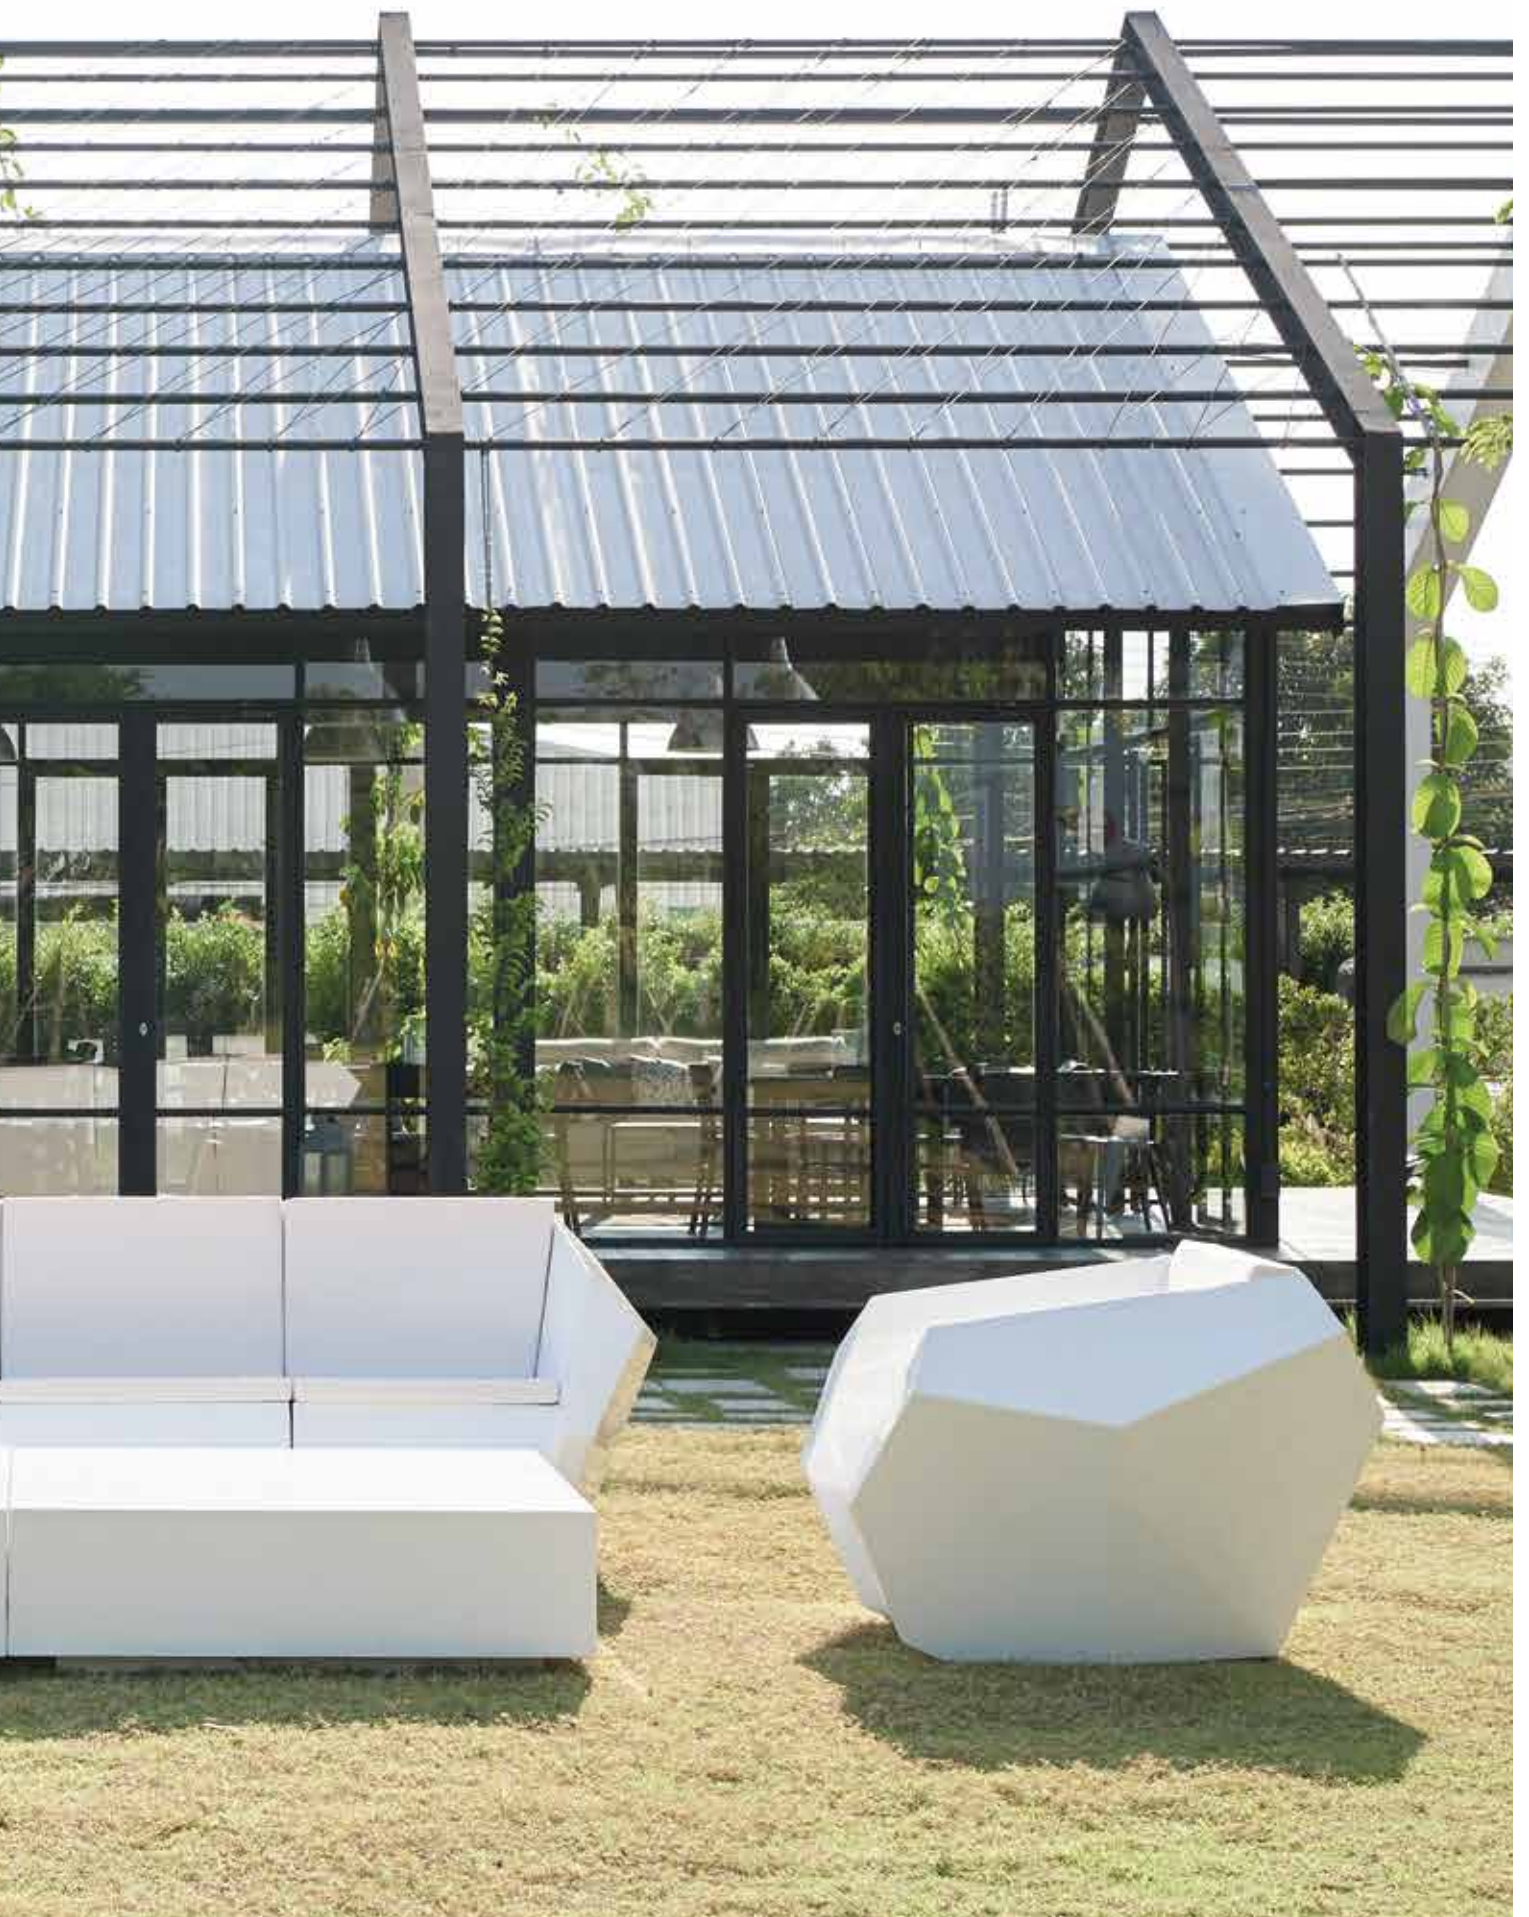

*Sun Lounger*

The mineral forms that could be found in nature the faceted geometry , the shape of crystallized quartz  
The sun lounger with side table can be used in an area dedicated to relaxation.

# Quarz

*Sofa & Armchair*

The clear symmetry crystal design provided with outdoor fabric cushion sofa set.

The modular unit allow the users to combine their own combination of sofa to fit and create stunning living space.

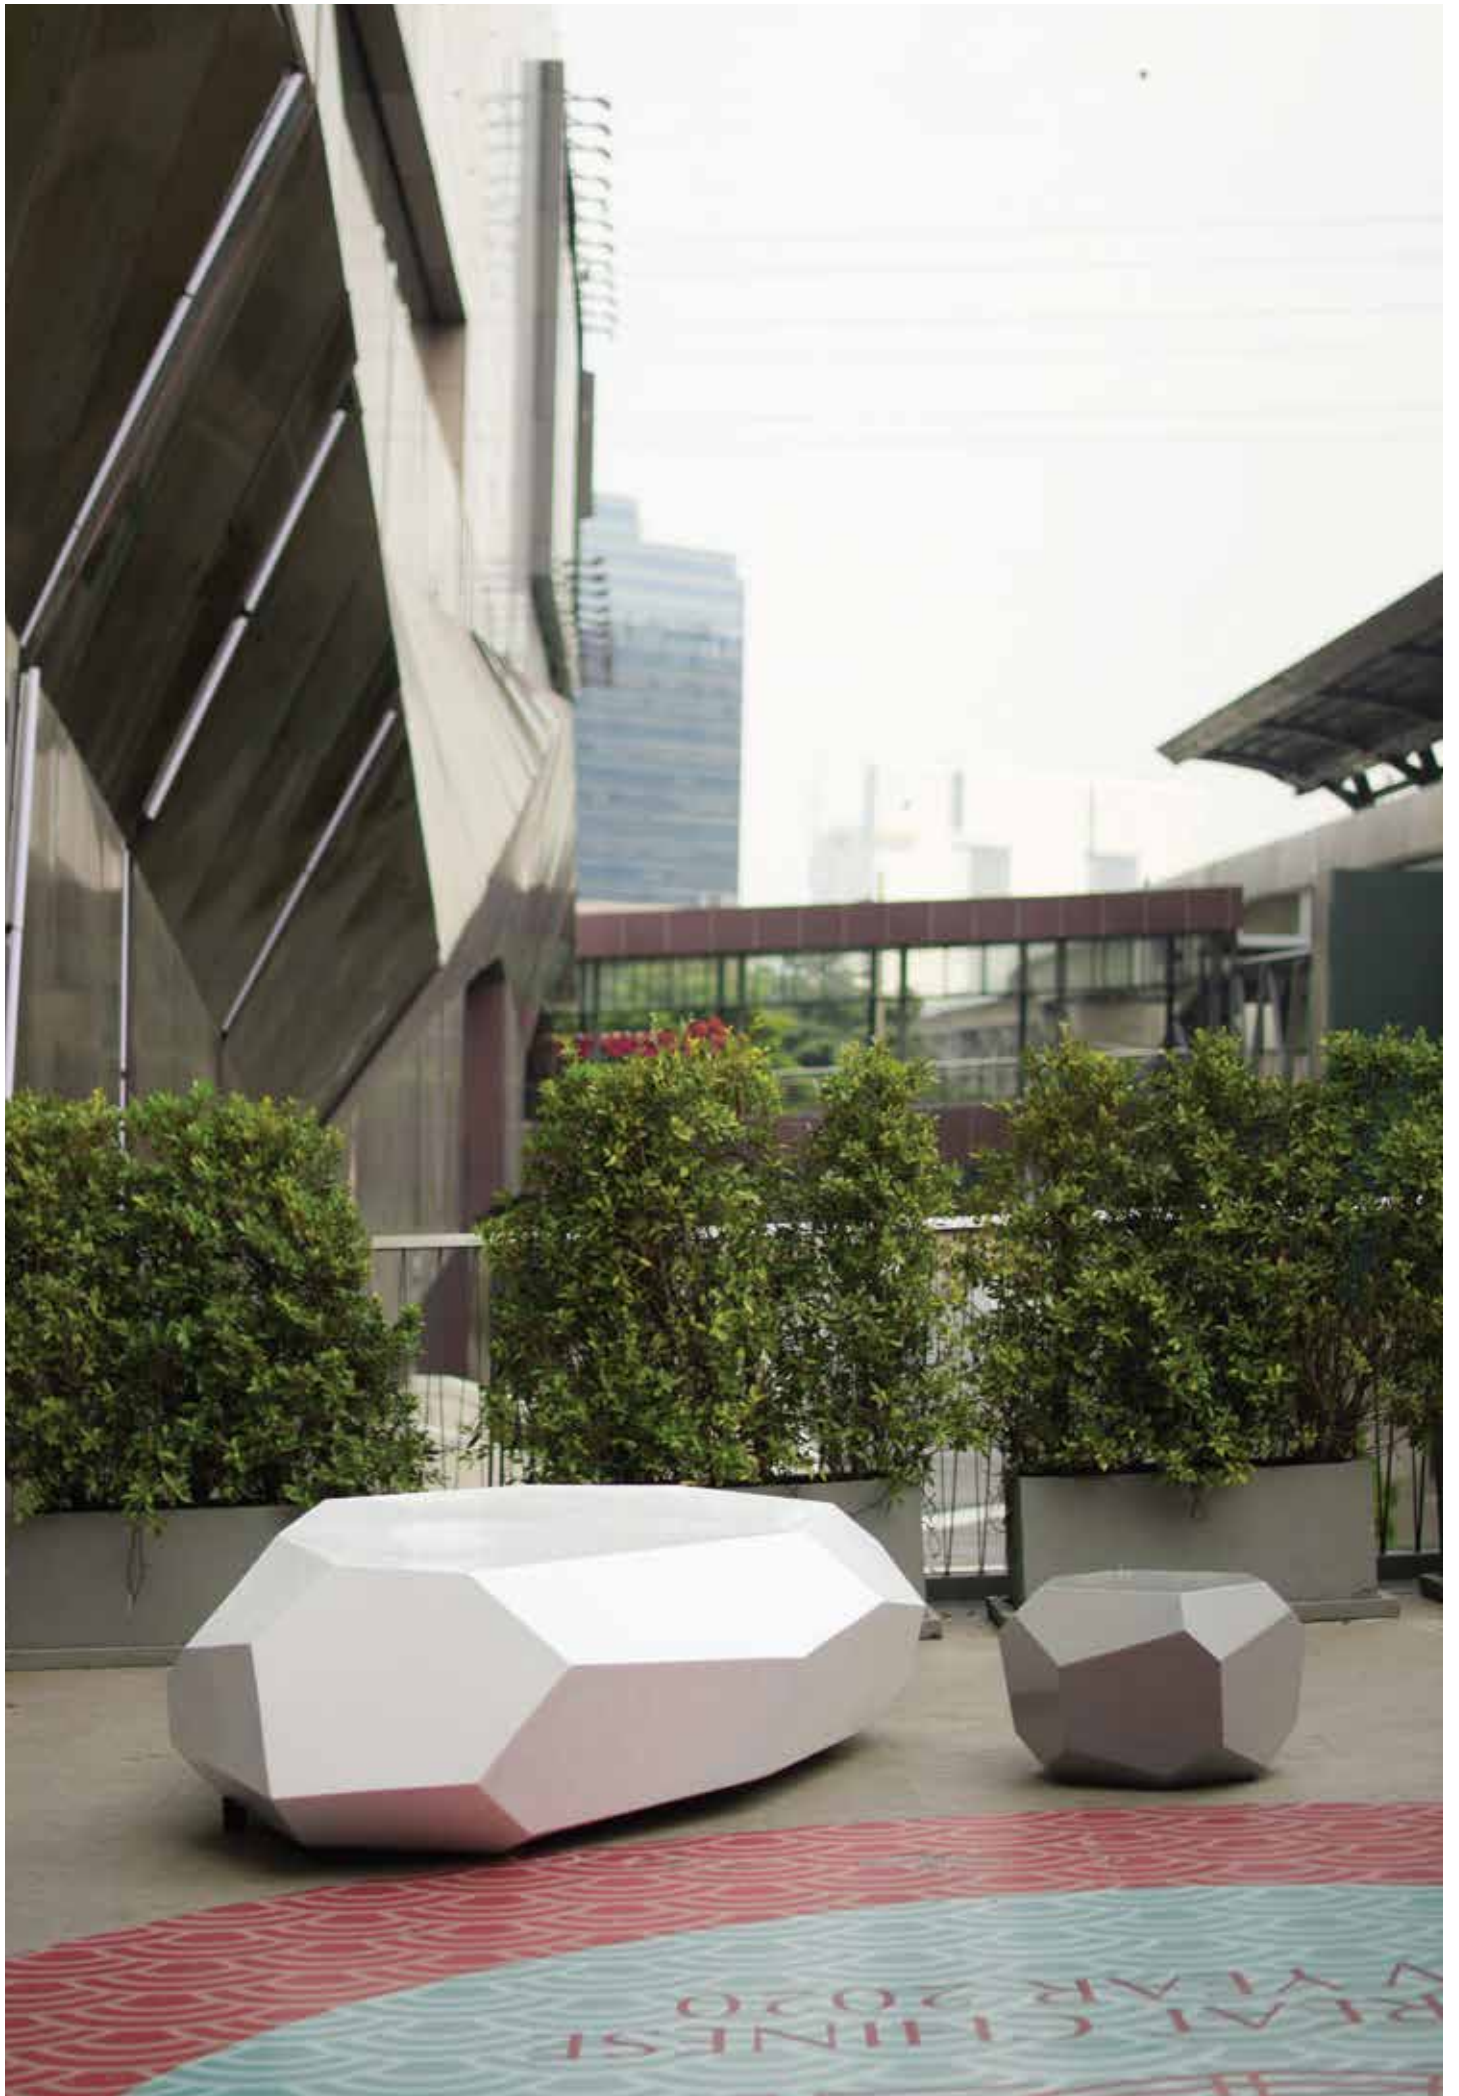

# Gems

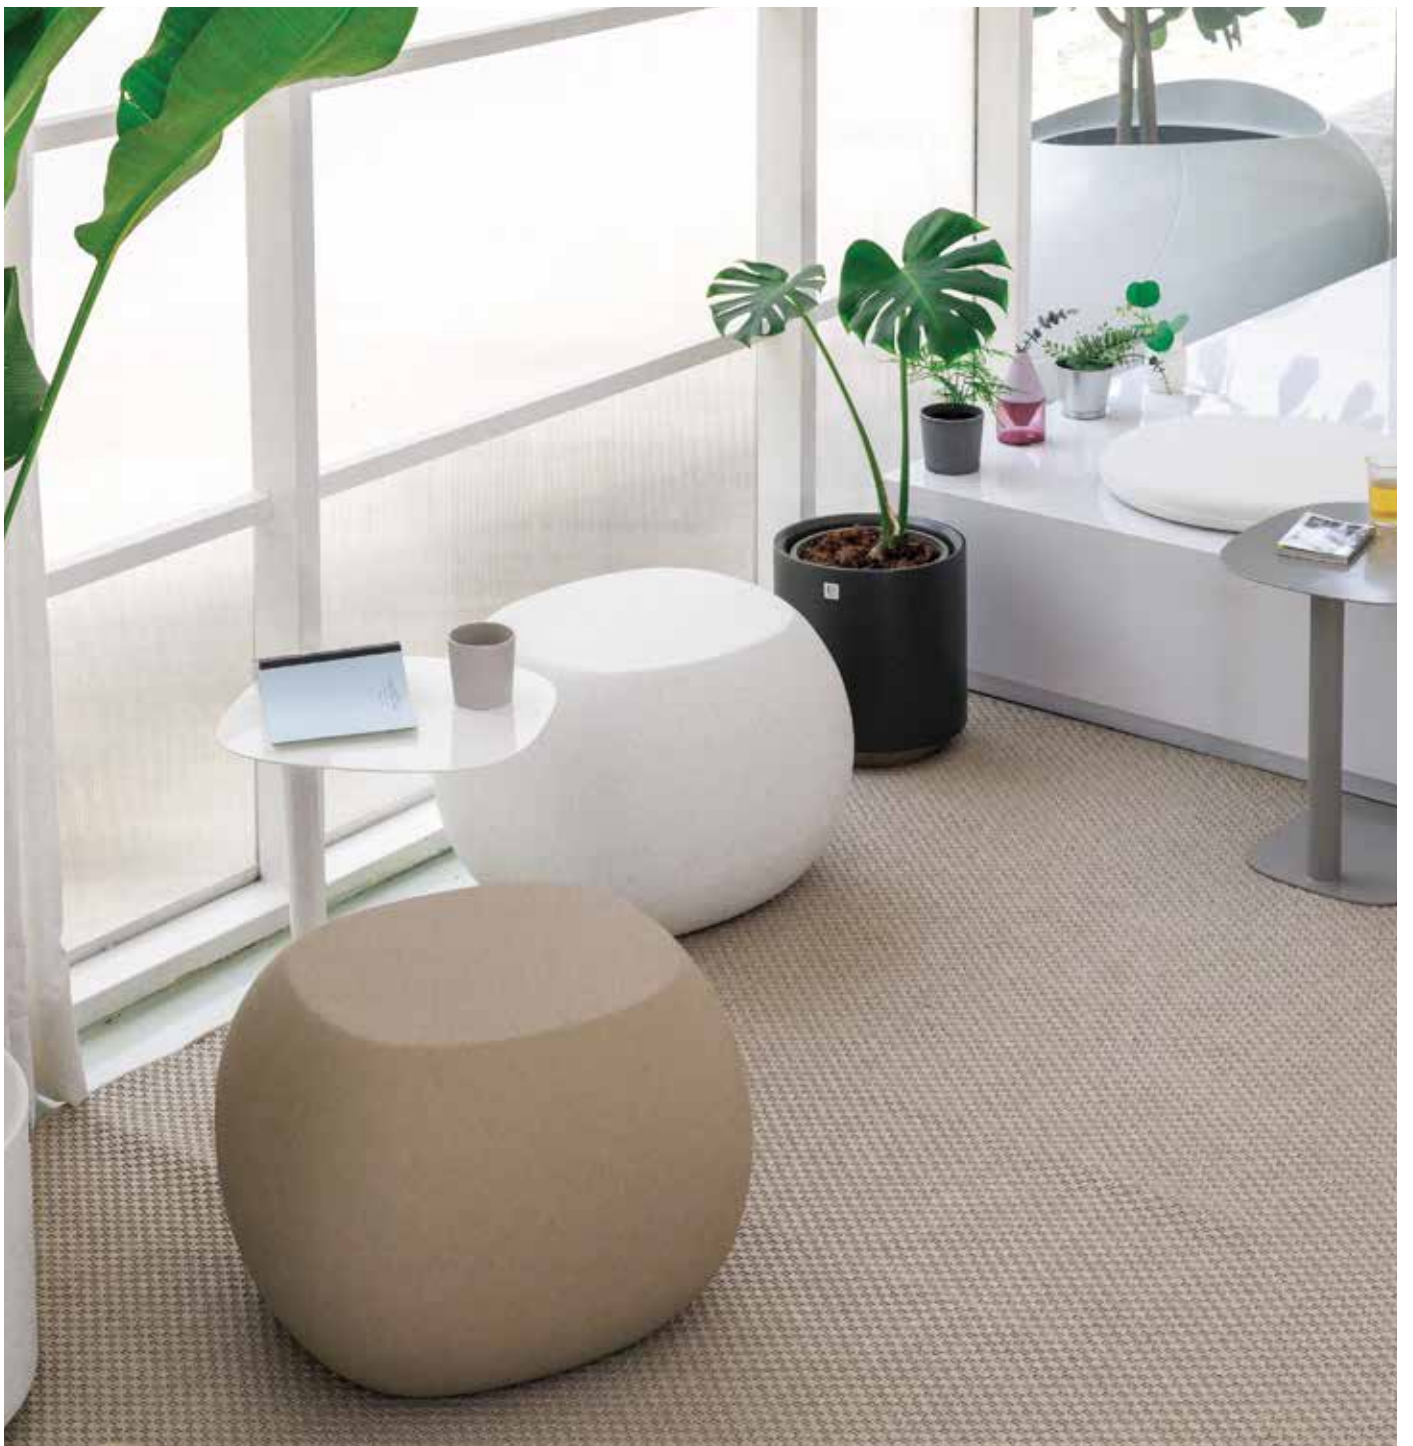

*Seating & Lamp*

The collection concept captured the shape of crystallized of natural gemstone and interpreted into the various range of proportions for stool coffee table and the garden lamp.

# Sym

*Side Table*

# Sans

*Coffee Table*

Just like the SUE collection, but the smooth wider of “recycled fibre glass” top adds “the coffee table feel” and allows SANS to be used as the center of the living set.

The curved powder coated steel leg with the structure hidden under gives SANS the light-weight slimmer appearance.

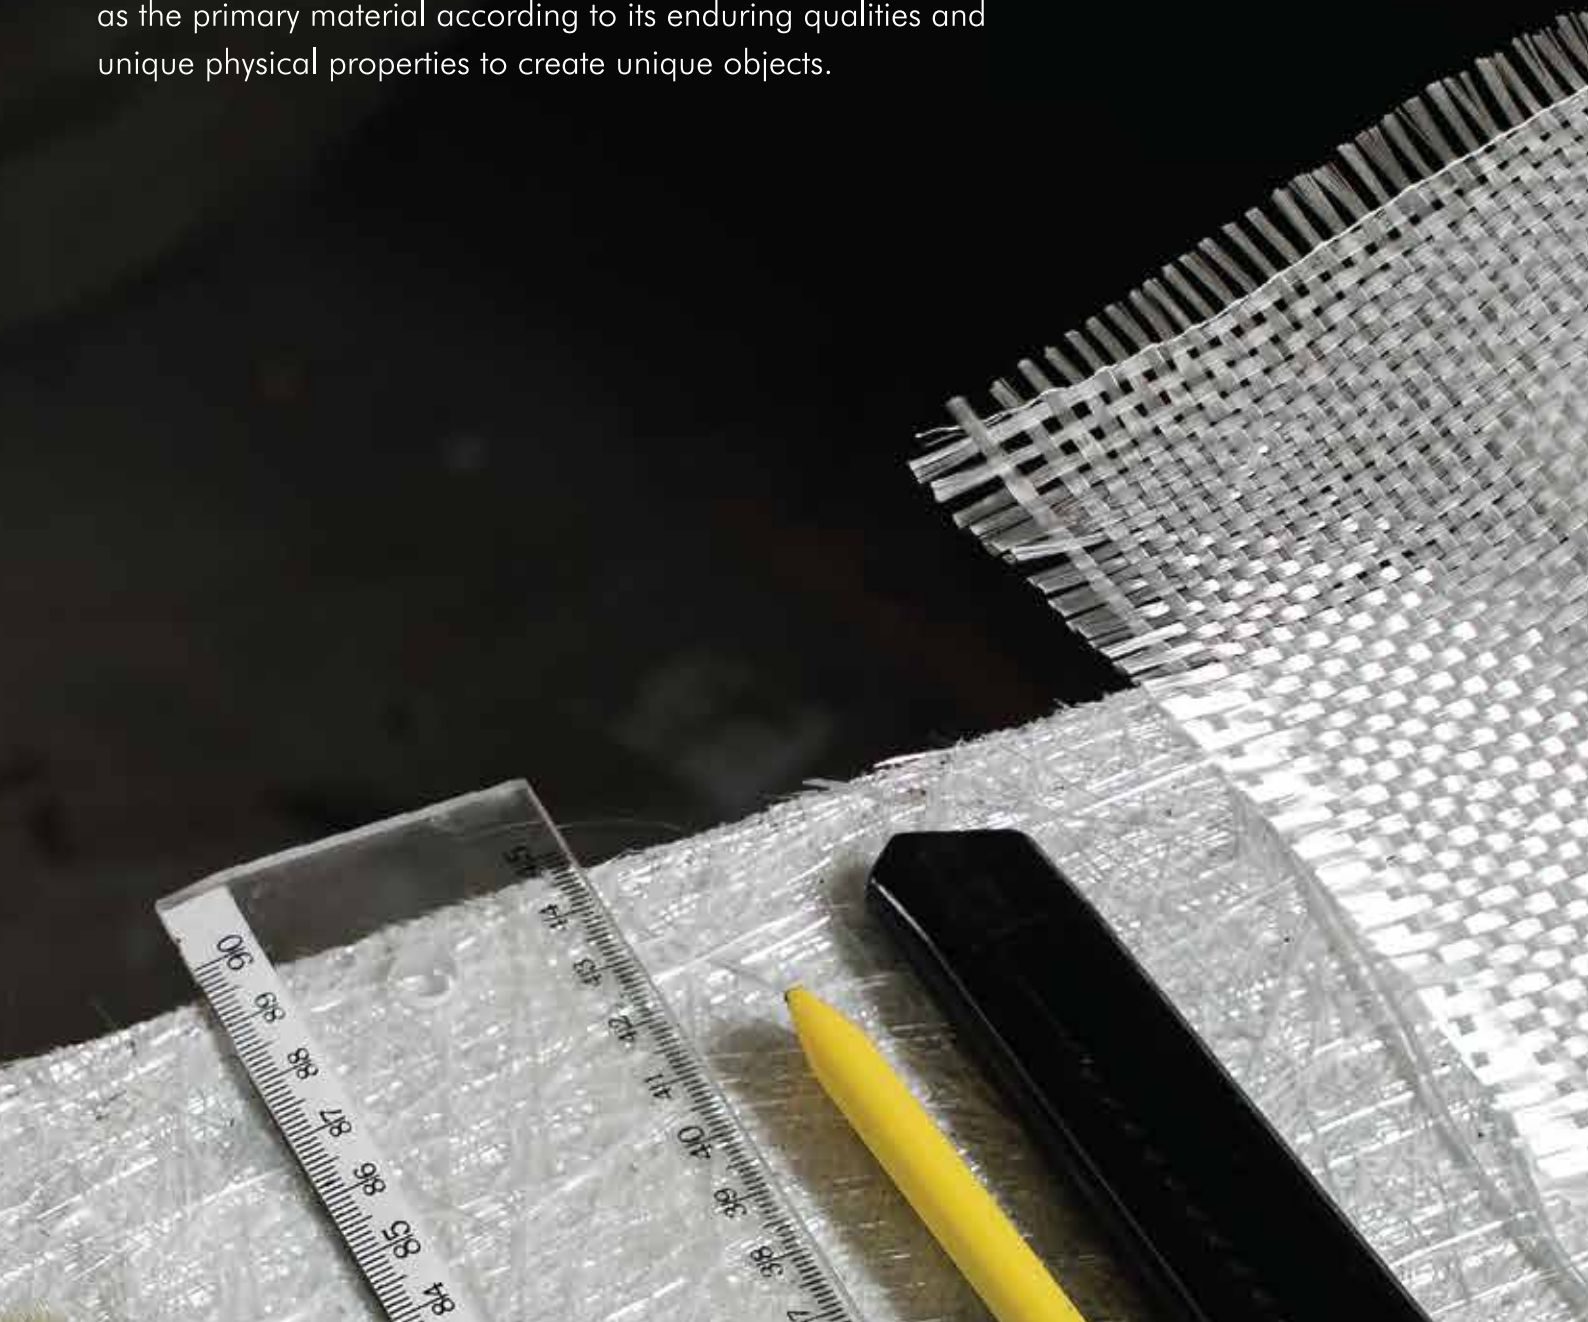

# ORIGIN

Tree square have started in 2012 by seeing the potential for what is considered well-design object which could elevate architectural spaces and landscape.

In the first decision, we started to extend the product from our base GRP Septic Tank Industries, PROUD ASIA CO., LTD. who considered to be Fiberglass expert for over 20 years.

The GRP Septic Tank are normally located underground or on ground in the open air area for decades. It's known to be durable to sunlight, rain and moisture. That's why we selected GRP ( Glass Reinforced Plastic ) as the primary material according to its enduring qualities and unique physical properties to create unique objects.

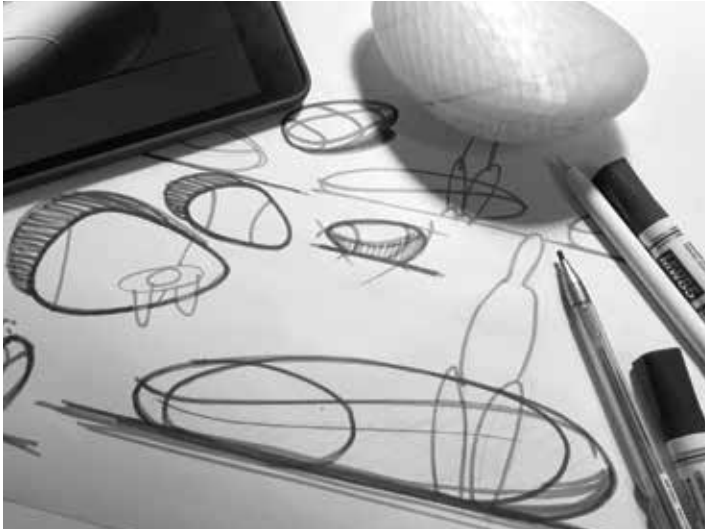

# PRECISE HANDICRAFT

With our ongoing commitment to research and development, our skilled craftsman have put a year of experience working and developing fiber-glass works though each production process from crafting the prototype, create the mould until the paint finish it gives life to a collection of objects and furniture which maintain the sculptural expression and handicraft.

We design and craft the items of Furniture and planters developed to enhance residential, hospitality and commercial environment. Design is an important aspect of our philosophy, a link between process and form + function, between the space and people to encourage human contact and peaceful environment.

# TO PEOPLE

Main purpose is to design and craft the object enhance the architecture and landscape space where people evolve with the surrounding space through our products. From being used as single unit to the large cluster.

Our products are completed by the users who make our purpose come to live.
